

Geotechnical investigation work in New Westminster and Surrey

September 8, 2021

Fraser Crossing Partners, the contractor who is building the Pattullo Bridge replacement, will be conducting geotechnical investigation work at several locations in New Westminster and on Highway 17 in Surrey throughout September.

While this work is underway, crews will use a sonic drill to gather subsurface soil information. Intermittent lane closures will be required. Below are the areas where the geotechnical investigative work is scheduled to take place:

- Dufferin Street south of Royal Avenue
- Between Albert Crescent and the Columbia Street on-ramp
- Columbia Street between McBride Boulevard and the Columbia Street on-ramp
- Royal Avenue between Peele Street and Windsor Street
- Along the existing bridge approach between Columbia Street and Royal Avenue
- Westbound Highway 17 shoulder between 124 Street and 114 Avenue

What to Expect

Timing

September 2021

Hours of Work

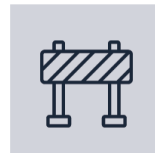

Monday to Friday from 7:00 a.m. – 8:00 p.m.

Some nighttime work may be required.

Traffic

When required, traffic control personnel will be on site to direct traffic, pedestrians, and cyclists. All traffic pattern changes will be well signed.

Impacts/Interruptions

Nearby residents may hear noise from a hydrovac (required in advance of drilling) or from the sonic drill. Every effort will be made to minimize noise levels while work is underway. Intermittent lane closures will be required.

We thank you for your patience as this work is completed. If you have any questions about this work, please email info@fcgp.ca or call the 24/7 phone line: 1-844-815-6149.
