

Pattullo Bridge Replacement Project

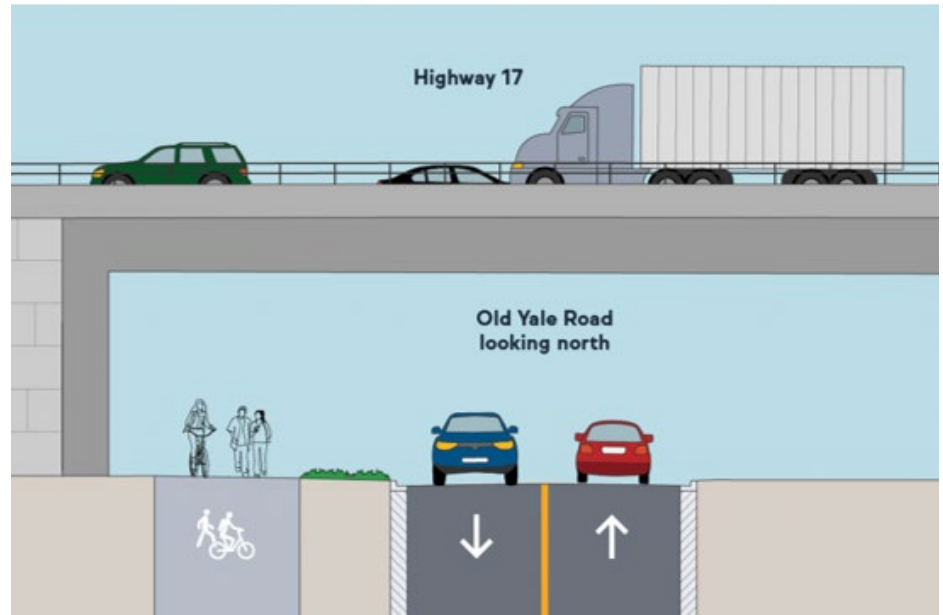

Highway 17 / Old Yale Road Overpass

Construction of the Highway 17/Old Yale Road Overpass

As part of the Pattullo Bridge Replacement Project, Highway 17 will be grade-separated over Old Yale Road, improving traffic flow on Highway 17.

Overpass installation will be done in phases, with access to and from Highway 17 via Old Yale Road reduced then fully removed by the final phase of work.

Drivers looking to access Old Yale Road from Highway 17 will use Tannery Road starting in 2024.

Highway 17 Overpass over Old Yale Road

2023-2024 Construction phases

Step 1: In spring 2023, construction of the Old Yale Road overpass will begin. Occasional closures of Old Yale Road and turning resections to and from Highway 17 will be required.

Step 2: In fall 2023, drivers heading eastbound on Highway 17 will be moved onto the overpass, and will no longer be able to access or exit Highway 17 or from Old Yale Road. Westbound traffic on Highway 17 will remain at grade.

Step 3: In late 2023/ early 2024, westbound traffic will be moved onto completed Old Yale Road overpass. Once the overpass is complete, drivers will access or exit Highway 17 at Tannery Road. This is a permanent change.
