

# Pattullo Bridge Replacement Project

## 2023 construction activities on Highway 17

Updated: August 2023

There will be a number of activities on Highway 17 in Surrey as part of ongoing construction for the Pattullo Bridge Replacement Project. Throughout 2023, crews will be constructing the foundations for the off-ramp from the new bridge to Highway 17 westbound, installing the girders for the new bridge over Highway 17, and constructing a new Highway 17 overpass at Old Yale Road. To minimize impacts to drivers, most of this work will be done at night and lane closures and detour routes will be implemented.

Notifications with more information on each of these activities will be posted on the project website and distributed in advance. Those who would like to receive email notifications can sign up [here](#).

### ① Ongoing foundation work for the new Highway 17 off-ramp: Spring – Summer 2023

Foundation work for the new Highway 17 off-ramp is ongoing. Pile installation is complete and construction of the concrete columns continues. Some closures of Bridge Road will be required while this work is underway. Intermittent pile driving is also ongoing for the new multi-use pathway foundations, which is scheduled to be complete in August.

- 2 Highway 17 realignment and permanent removal of left turn onto Old Yale Road: Spring 2023 (complete)**

In spring 2023, Highway 17 between Tannery Road and the Pattullo Bridge was temporarily realigned to allow for construction of the Highway 17 / Old Yale Road overpass. The left turn from westbound Highway 17 onto southbound Old Yale Road has been permanently removed. Westbound drivers looking to exit Highway 17 can use Bridgeview Drive or Tannery Road. Two lanes in each direction are being maintained, and the highway alignment will be reinstated once the overpass is completed.
- 3 Girder installation for the new bridge (overnight closures of Highway 17): Late Summer 2023**

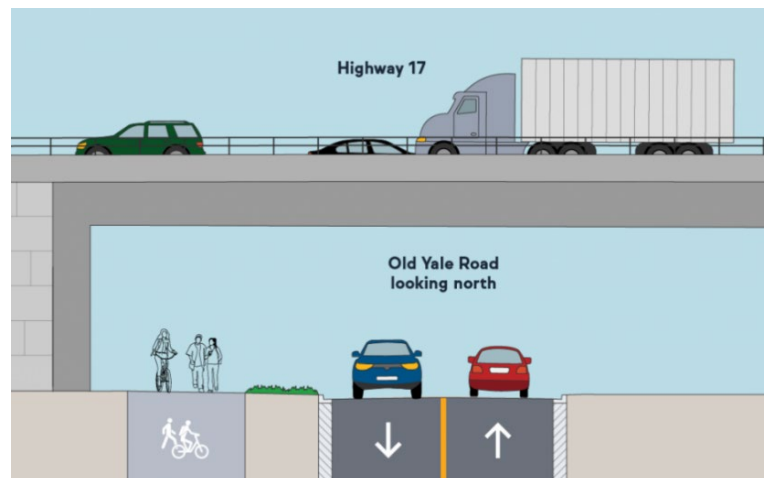

In late summer 2023, construction of the new bridge over Highway 17 will begin with crews lifting girders into place. Highway 17 between Old Yale Road and Bridgeview Drive will be closed overnight in both directions for approximately three weeks when girder installation is underway. Some overnight closures of Musqueam Drive, Bridge Road, and 112 Avenue and 111a Avenue will also be required. Detour routes will be in effect while these closures are in place.
- 4 Construction of the Highway 17 / Old Yale Road overpass: Spring – Winter 2023**

As part of the project, Highway 17 will be grade-separated over Old Yale Road, improving traffic flow on Highway 17. Bridge Road will be upgraded to a two-way road with a new multi-use path.

**Step 1:** In spring 2023, construction began for the Old Yale Road overpass. Occasional closures of Old Yale Road and turning restrictions to and from Highway 17 were required.

**Step 2:** In fall 2023, crews will lift girders for the new overpass into place. Highway 17 between Old Yale Road and Bridgeview Drive will be closed overnight in both directions for approximately three weeks. Construction of the bridge deck will commence after girder installation is complete.

**Step 3:** In late 2023/early 2024, eastbound traffic will be moved onto the completed eastbound portion of the Old Yale Road overpass, and eastbound drivers will access or exit Highway 17 at Tannery Road or Bridgeview Drive. Construction of the westbound portion of the Old Yale Road overpass will then commence.

Above: Highway 17 Overpass over Old Yale Road.
