

Pattullo Bridge Replacement Project

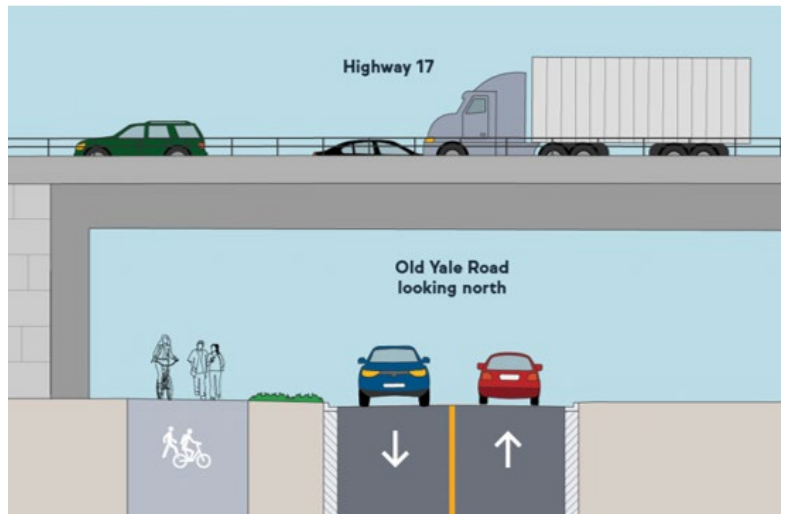

Highway 17 / Old Yale Road Overpass

Construction of the Highway 17/Old Yale Road Overpass

As part of the Pattullo Bridge Replacement Project, Highway 17 will be grade-separated over Old Yale Road, improving traffic flow on Highway 17.

Overpass installation will be completed in phases. Access to and from Highway 17 via Old Yale Road is being reduced during construction and then fully removed by the final phase of work.

Drivers looking to access Old Yale Road from Highway 17 will use Tannery Road starting in 2024.

Highway 17 Overpass over Old Yale Road

Construction phases

Eastbound Highway 17 traffic: Construction of the eastbound portion of the overpass is underway. Occasional closures of Highway 17 and Old Yale Road will be required this winter, as crews lift girders for the eastbound portion into place. In early 2024, eastbound Highway 17 traffic will be moved onto the new overpass, and eastbound drivers will access or exit Highway 17 at Tannery Road or Bridgeview Drive.

Westbound Highway 17 traffic: Crews will begin construction of the westbound portion of the overpass in spring 2024. Some turning restrictions will be required at the Highway 17 and Old Yale Road intersection, as well as occasional closures of Highway 17 and Old Yale Road for crews to lift girders into place. Once complete, all traffic will be moved onto the completed Highway 17 Overpass over Old Yale Road.

Notifications with more information on traffic pattern changes associated with overpass construction will be posted on the project website and distributed in advance. Those who would like to receive email notifications can sign up [here](#).
