

# Commercial Vehicle Detour sheet

## Detour routes during Columbia Street closure

Starting on Tuesday, April 2, Fraser Crossing Partners will implement a one-month full closure of Columbia Street between McBride Boulevard and Elliot Street. This full closure is required for crews to lift steel girders across the roadway between the bridge foundations on either side of Columbia Street.

While this closure is in effect, commercial vehicles will continue to use Front Street and official 24/7 truck routes as shown below. Access to and from all businesses on Columbia Street and Front Street Mews will be maintained at all times. Businesses are open and all traffic pattern changes and detours will be well signed. Access to the Pattullo Bridge will be maintained via Bridge Connector and the Royal Avenue on-ramp as the Columbia Street loop-ramp will be closed.

Westbound commercial vehicles travelling to Surrey after 9 p.m. are encouraged to use the Port Mann, Queensborough, and Alex Fraser Bridges.

- Road closure
- 24/7 commercial vehicle detour routes
- Daytime commercial vehicle detour route

Work activities are being planned so that there are not concurrent closures on key roadways in New Westminster during the day time.

Additional information regarding the Columbia Street closures and girder installation work will be posted to the Current Works and Information Sheets pages at [pattullobridgereplacement.ca](http://pattullobridgereplacement.ca).

If you have questions or need assistance, please email [info@fcgp.ca](mailto:info@fcgp.ca) or call the 24/7 phone line: 1-844-815-6149.
