

# Nighttime deliveries of steel girders in New Westminster

April 5, 2024

Starting the week of April 8, crews will begin delivering steel girders to the work site adjacent to McBride Boulevard and Columbia Street. These steel girders will be lifted into place during the current full closure of Columbia Street.

Approximately 14 nighttime deliveries will take place within a three-week period. When deliveries are scheduled to occur, there will be intermittent stoppages on E. Columbia Street and McBride Boulevard between midnight and 5 a.m. for crews to pull into the work site. Two additional steel components will also need to be delivered across all four lanes of the Bridge Connector requiring stoppages of traffic for approximately 10 minutes each to access the work area adjacent to the northbound lanes.

These deliveries are being done at night to minimize the impacts to the travelling public and the activities involved are not anticipated to be noisy.

## What to Expect

### Timing

Starting the week of April 8 and continuing intermittently at night for approximately three weeks.

### Hours of Work

Deliveries will be done between midnight and 5 a.m.

### Traffic

Intermittent stoppages on E. Columbia Street and McBride Boulevard will be required for up to 20 minutes throughout the three-week period. Stoppages on Bridge Connector will be required for up to 10 minutes each for approximately two nights. When deliveries are underway, traffic control personnel will be on site to assist delivery trucks accessing and exiting the site as required. All traffic pattern changes will be well signed.

### Impacts/Interruptions

Nearby residents may experience delays from traffic stoppages.

We thank you for your patience as this work is completed. For more information about girder installation activities in New Westminster, please visit [pattullobridgereplacement.ca](http://pattullobridgereplacement.ca).
