

Nighttime girder installation activities

September 19, 2024

A six-month full closure of Front Street between Begbie Street and E. Columbia Street is currently in effect while crews install steel girders and build the new bridge deck between the bridge foundation south of Columbia Street and the in-river foundation near the New Westminster shoreline.

As much as possible, girder installation activities over Front Street are being completed during daytime hours; however, in some instances, this work may need to occur at night.

Starting at 8 p.m. on Sunday, September 22, crews will be conducting nighttime girder installation activities until approximately 8 a.m. on the morning of Monday, September 23. This work must be performed at night to align with railway operations.

Nearby residents may hear intermittent noise associated with the installation and bolting of the girders.

What to Expect

Timing

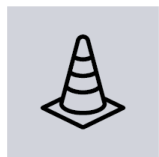

From 8 p.m. on Sunday, September 22 to 8 a.m. on Monday, September 23

Hours of Work

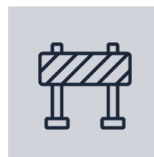

8 p.m. to 8 a.m.

Construction activities resulting in periods of noise will be intermittent and continue throughout the night.

Traffic

More information about the current six-month closure of Front Street is available [here](#) and on the Current Works page of the Project website.

Impacts/Interruptions

Nearby residents may hear some noise while girders are lifted and bolted into place. We appreciate your patience while we complete this work.

If you have any questions about this work, please email info@fcgp.ca or call the 24/7 phone line: 1-844-815-6149. For more information about the Project, please visit pattullobridgereplacement.ca.
