Start Date and Time: October 11, 2024 – 06:00 **End Date and Time**: October 21, 2024 – 06:00

Location of Activity:

Pier N1 – Secondary (Domestic) Navigational Channel and Pier S1 – Main (Domestic) Navigational Channel

Fraser River upstream of the New Westminster Rail Bridge approximate Latitude 49 12' 30", Longitude 122 53' 32".

Brief Description of Work:

Barges with steel girders will be positioned on the east side of the S1 Pile Cap. Barges will also be positioned on the North Bank. Occasional barge crossings will be required.

Construction of **Deck Segment SM-05** will be ongoing. This includes structural steel installation, stay cable installation, precast panel placement on top of fully erected steel girders, rebar placement and concrete stitch pours over parts of the Main Channel – Downstream Draw. TSOP must be followed. Flashing amber lights have been installed for visual warning of overhead bridge works – **please avoid the area with flashing lights**.

On Friday, October 11, the dive team will be continuing inspections of the existing Pattullo Bridge piers as part of design planning for demolition. The diving operations will utilize a 20ft jet boat dive support vessel, as the primary platform for the dive team and all equipment. The vessel will be securely tied to each pier during operations. No interferences to navigation are expected. When transiting, **please be alert to dive down flags indicating divers are in the river and working in the vicinity.**

Refer to attached sketches.
