

# Detour sheet

## Regular traffic, pedestrian, and cyclist detour routes during Columbia Street closures

Throughout construction, Fraser Crossing Partners will need to implement full closures of Columbia Street and the Central Valley Greenway between McBride Boulevard and Elliot Street. These full closures are required for crews to complete bridge deck construction activities across the roadway between the bridge foundations on either side of Columbia Street.

While full closures are in effect, drivers, pedestrians, and cyclists will be detoured to Royal Avenue as shown below. Access to the Pattullo Bridge will be maintained via Bridge Connector and the Royal Avenue on-ramp as the Columbia Street loop-ramp will be closed. Columbia Street between 6th Street and Elliot Street will remain open for local traffic. **Access to and from all businesses on Columbia Street and Front Street Mews will be maintained at all times via 4<sup>th</sup> Street and 6<sup>th</sup> Street.** Commercial vehicles will continue to use Front Street and official truck routes.

All traffic pattern changes and detours will be well signed.

- Road closure
- Regular traffic detour route
- Commercial vehicle detour route
- CVG - Cyclist and pedestrian detour (shortest route)
- CVG - Cyclist and pedestrian detour (alternate route)
- Local traffic only

Work activities are being planned so that there are not concurrent closures on key roadways in New Westminster.

Additional information regarding the Columbia Street closures and bridge construction will be posted to the Current Works and Information Sheets pages at [pattullobridgereplacement.ca](http://pattullobridgereplacement.ca).

If you have questions or have mobility issues and need specific assistance with this detour route, please email [info@fcgp.ca](mailto:info@fcgp.ca) or call the 24/7 phone line: 1-844-815-6149.
