PATTULLO BRIDGE
REPLACEMENT

Nighttime bolting for the new E. Columbia exit-ramp

October 20, 2025

On Tuesday, October 14, Fraser Crossing Partners began installing the final girders for the new E. Columbia exit-ramp. Occasional overnight local closures of Columbia Street between McBride Boulevard and Elliot Street were required; however, the remaining work will be completed with single lane closures.

As the girders are installed, crews need to install steel bolts to ensure the girders are safely secured. This is a critical piece of work that needs to be completed prior to crews installing the deck panels and pouring the concrete to complete the structure. This structure will provide a new connection for northbound traffic from the new bridge to E. Columbia Street.

What to Expect

Timing

Monday, October 20 and Tuesday, October 21.

Hours of Work

24 hours a day.

Traffic

Single lane closures on Columbia Street are required. All traffic pattern changes will be well signed.

Impacts/Interruptions

Nearby residents may hear noise while the girder installation and bolting activities are underway.

We appreciate your patience while we complete this work. If you have any questions about this work, please email info@fcgp.ca or call the 24/7 construction information phone line: 1-844-815-6149. For more information about the Project, visit pattullobridgereplacement.ca.
