

Overnight closures of Royal Avenue on-ramp for construction of multi-use path overpass

July 9, 2026

Starting Thursday, July 16, crews will install concrete deck panels on the multi-use path overpass that crosses over the Royal Avenue on-ramp and Bridge Connector in New Westminster.

To complete this work, overnight closures of the Royal Avenue on-ramp will be required between 9 p.m. and 5 a.m. for approximately one week. Drivers using the Royal Avenue on-ramp to the stal'əwasəm (Riverview) Bridge can instead take 6th Street to 6th Avenue, and McBride Boulevard to Bridge Connector.

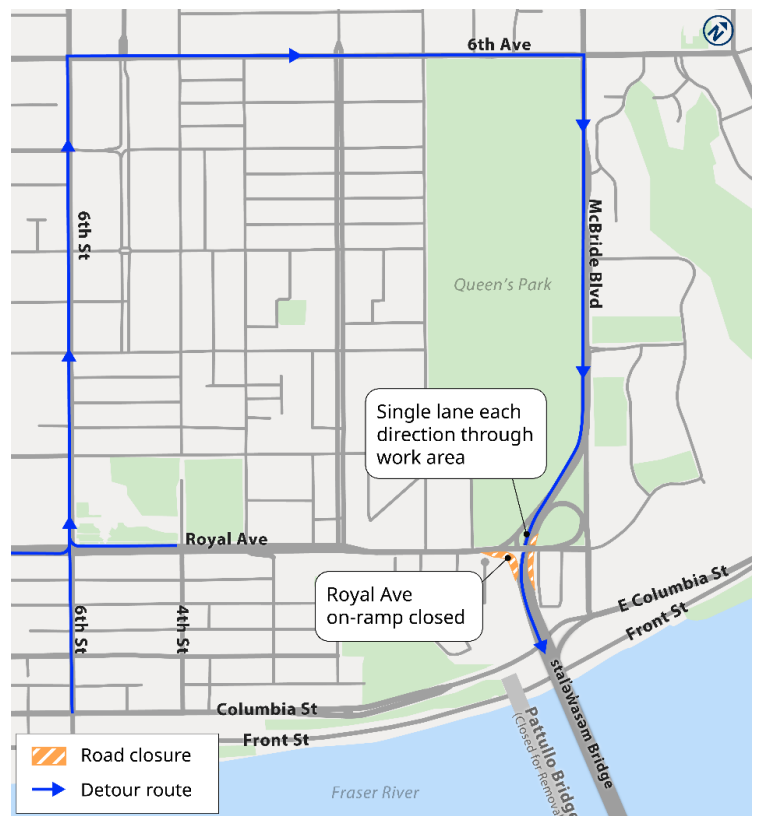

Lane closures of Bridge Connector will also be required between 10 p.m. and 5 a.m. for approximately one week. One lane in each direction will be maintained, except during 10-20 minute intermittent periods, when single-lane alternating traffic will be in place.

Access for emergency responders will not be maintained on the Royal Avenue on-ramp but will be available via the McBride Boulevard-Bridge Connector detour. Commercial vehicles will be detoured to [designated truck routes](#).

All traffic pattern changes and detour routes will be well signed, and traffic control personnel will be on site to assist when required.

Nearby residents may hear some noise associated with construction activities.

Following completion of panel installation over the Royal Avenue on-ramp, additional intermittent overnight Royal Avenue on ramp closures and single-lane closures in each direction on Bridge Connector will be required. One southbound and one northbound lane will be maintained on the Bridge Connector. After deck panel installation is complete, a full overnight closure of Bridge Connector will be required for

crews to complete the concrete pour on the overpass. **More information will be provided in future notifications.**

What to Expect

Timing

Starting the night of Thursday, July 16 for approximately one week.

Hours of Work

Royal On-Ramp: 9 p.m. to 5 a.m.
Bridge Connector: 10 p.m. to 5 a.m.

Traffic

Drivers using the Royal Ave. on-ramp to the stal'əwasəm Bridge can take 6th St. to 6th Avenue, and McBride Boulevard to Bridge Connector.

One lane maintained in each direction on Bridge Connector. Single-lane alternating traffic on Bridge Connector will be in place periodically.

Impacts/Interruptions

Drivers may experience longer than normal travel times.

Nearby residents will hear noise associated with construction activities.

No impacts to multi-use paths.

We appreciate your patience while we complete this work. If you have any questions, please email info@fcgp.ca or call the 24/7 construction information phone line: 1-844-815-6149. For more information about the Project, visit pattullobridgereplacement.ca.
