PATTULLO BRIDGE
REPLACEMENT

Construction activities for Agnes-Royal multi-use path overpass in New Westminster

July 21, 2026

Throughout the week of July 20, Fraser Crossing Partners is continuing construction of the new Agnes-Royal multi-use path overpass over the Bridge Connector and Royal Avenue on-ramp. This work involves installing concrete deck panels as [notified on July 9](#).

This work was not anticipated to be noisy; however, as installation progresses, additional cutting and fitting of the deck panels is required, which can generate intermittent noise.

Going forward, the project team will adjust deck panel installation methods where feasible, to try to reduce noise. **Nearby residents will continue to hear noise associated with construction activities.** We know that construction can be disruptive, and we appreciate your patience while we complete this work.

To reduce impacts to bridge traffic, work activities are taking place from 9 p.m. until approximately 5 a.m. While crews will try to complete noisy activities during the day, some of these activities are sequential and need to be completed at night, leading to nighttime noise.

What to Expect

Timing

Throughout the week of July 20.

Hours of Work

9 p.m. to 5 a.m.

Traffic

[Overnight closures](#) of the Royal Avenue on-ramp and lane closures of Bridge Connector.

Impacts/Interruptions

Nighttime noise from construction activities for approximately one week.

Thank you for your patience
