PATTULLO BRIDGE
REPLACEMENT

Intermittent overnight Bridge Connector lane closures and Royal Avenue on-ramp closures for finishing works on multi-use path overpass

August 28, 2026

Starting Tuesday, September 1, crews will be conducting finishing works on the Agnes-Royal multi-use path overpass in New Westminster.

To complete this work, some overnight intermittent single-lane closures on Bridge Connector will be required between 10 p.m. and 5 a.m. for approximately one week. One lane in each direction will be maintained.

Overnight closures of the Royal Avenue on-ramp will be required between 9 p.m. and 5 a.m. on Friday, September 4 and again on Tuesday, September 8 and Wednesday, September 9. Drivers using the Royal Avenue on-ramp to the stal'əwasəm (Riverview) Bridge can instead take 6th Street to 6th Avenue, and McBride Boulevard to Bridge Connector.

Access for emergency responders will not be maintained on the Royal Avenue on-ramp but will be available via the McBride Boulevard-Bridge Connector detour. Commercial vehicles will be detoured to designated truck routes.

All traffic pattern changes and detour routes will be well signed, and traffic control personnel will be on site to assist when required.

Nearby residents may hear some noise associated with construction activities.
