PATTULLO BRIDGE
REPLACEMENT

Pattullo Bridge arch removal

October 5, 2026

On the weekend of October 9 – 11, the Pattullo Bridge arch will be removed and lowered onto a barge for dismantling and recycling. The process will happen slowly over a period of approximately 48 – 60 hours.

A closure of the main navigation channel in the Fraser River is required between the evening of October 9 and the evening of October 11. The domestic navigation channel will remain open for marine traffic with suitable height clearance. Marine users can visit pattullobridgereplacement.ca/construction/current-works for more information.

Traffic on the stal'əwasəm (Riverview) Bridge will not be impacted and stopping on the bridge to view the arch lowering is not permitted. While the project does not have designated viewing areas, the lowering may be visible from locations along the Fraser River such as Brownsville Bar Park in Surrey and Westminster Pier Park or Albert Crescent Park in New Westminster.

Background:

Mitigation measures are in place to minimize noise and to prevent demolition materials from entering sensitive environments. For more information about the arch lowering process, visit pattullobridgereplacement.ca/app/uploads/sites/637/2026/10/PBRep-Learning-Arch-WEB.pdf. For more information about general deconstruction, visit pattullobridgereplacement.ca/deconstruction.

What to Expect

Timing

The weekend of October 9 – 11, 2026.

This work is weather dependent.

Hours of Work

Arch removal will take place 24 hours a day.

Traffic

The stal'əwasəm Bridge, and the east multi-use path, will remain open.

Impacts/Interruptions

Nearby residents may hear noise associated with deconstruction activities.

Torches cutting the arch from the bridge span will be visible on the morning of Saturday, October 10, as part of a carefully managed process.
